About Praetorian Power Protection, LLC

Honesty, Integrity, and Accountability. These core values are the guiding principles in which Praetorian Power Protection manages internal affairs, unites its employees, as well as build authentic long-term relationships with customers.

Praetorian Power Protection was created to develop a group of specialized professionals to deliver high quality results in service and maintenance needs of today's mission critical environments. We are committed to providing our customers with Electrical Testing, UPS, PDU and ASTS maintenance in accordance with OSHA and NFPA requirements, IEEE, NETA, and industry standards.

Our vision is to grow Praetorian Power Protection as an industry leader with an elite team of experienced and electrically licensed service engineers who have been trained specifically in critical power system standards, applications, and designs in order to deliver premium services with precision and safety. Please visit <http://praetorianpower.com> for more information. The selected candidate must be authorized to work in the United States and be over 18 years old. Relocation assistance is not available for this position.

Job Description:

We are currently seeking a seasoned Commissioning Manager to spearhead Level 4 (L4) and Level 5 (L5) commissioning activities for our esteemed client at our project site in Pryor, OK. The successful candidate will lead a team of commissioning professionals for the General Contractor, ensuring the seamless execution of commissioning plans while maintaining the highest standards of quality and efficiency.

Key Responsibilities:

-Leadership and Oversight: Provide strategic direction and oversight for all commissioning activities, fostering a collaborative and high-performance culture within the team.

-Project Planning and Execution: Develop and implement comprehensive commissioning plans and schedules, in alignment with project objectives and client expectations.

-Client Engagement: Serve as the primary point of contact for the client, maintaining open lines of communication, addressing inquiries, and ensuring client satisfaction throughout the project lifecycle.

-Technical Expertise: Utilize your extensive technical knowledge to oversee system integration, testing, troubleshooting, and documentation, ensuring compliance with industry standards and regulations.

-Quality Assurance: Implement rigorous quality control measures to verify the functionality and performance of installed systems, conducting thorough inspections as necessary.

-Risk Management: Identify and mitigate potential risks and issues that may impact commissioning activities, proactively developing contingency plans to minimize project disruptions.

-Resource Allocation: Effectively allocate resources, including personnel, equipment, and materials, to support commissioning activities while optimizing efficiency and productivity.

-Reporting and Documentation: Prepare detailed reports, documentation, and commissioning records to track progress, document findings, and ensure adherence to project requirements and specifications.

-Team Development: Provide mentorship and professional development opportunities to commissioning team members, fostering a culture of continuous learning and growth.

Qualifications:

-Bachelor's degree in engineering or related field preferred but not required.

-Minimum of 5 years of experience in commissioning management, with expertise in Level 4 and Level 5 activities.

-Proven track record of successfully managing commissioning projects from inception to completion.

-Strong technical proficiency in HVAC, electrical, mechanical, and automation systems.

-Exceptional leadership, communication, and interpersonal skills.

-Proficiency in project management tools and software.

-Thorough understanding of industry standards, codes, and regulations.

-Willingness to travel as needed to support project requirements.

-Relevant certifications (e.g., CxA, LEED AP) preferred.

Benefits:

Competitive hourly rate of \$50-\$70 per hour.

Per diem provided, if applicable and subject to IRS guidelines.

Full health insurance coverage.

Additional comprehensive benefits package included.

Opportunity to work on a prestigious project with the potential for extension.

Professional development and training opportunities.

Collaborative and supportive work environment.

How To Apply:

Please send resume with your contact information, salary requirements to Mimi Daniels at **mdaniels@praetorianpower.com**. All offers of employment are contingent on an acceptable background check. Salary will be commensurate with experience.
